

International Workshop Fourier Analysis and Partial Differential Equations

June 14 - 17, 2010 in Göttingen

Speakers

Mirsaid Aripov, Tashkent

Dorothea Bahns, Göttingen

Adalberto Bergamasco, São Paulo

Neal Bez, Glasgow

Christiane Böhme, Freiberg

Yasuo Chiba, Tokyo

Piero D'Ancona, Rome

Michael Dreher, Konstanz

Claudia Garetto, London

Vladimir Georgiev, Pisa

Todor Gramchev, Cagliari

Karlheinz Gröchenig, Vienna

Chisato Iwasaki, Himeji

Tynisbek Kalmenov, Almaty

Erkinjon Karimov, Tashkent

Masaharu Kobayashi, Tokyo

Naoto Kumano-go, Tokyo

Tokio Matsuyama, Hiratsuka

Tohru Ozawa, Tokyo

Stevan Pilipovic, Novi Sad

Luigi Rodino, Torino

Elmar Schrohe, Hannover

Bert-Wolfgang Schulze, Potsdam

Jörg Seiler, Loughborough

Joachim Toft, Växjö

Naohito Tomita, Osaka

Ville Turunen, Helsinki

Baoxing Wang, Beijing

Jens Wirth, London

Hideshi Yamane, Sanda

Featured topics

- Elliptic and hyperbolic partial differential equations
- Smoothing and Strichartz estimates for dispersive partial differential equations
- Pseudodifferential operators, Fourier integral operators
- Function spaces in partial differential equations
- Spectral analysis and scattering theory
- Microlocal analysis, time-frequency analysis
- Nonlinear partial differential equations

ORGANIZERS

Michael Ruzhansky
Imperial College
Mathematics Department
180 Queen's Gate
London, SW7 2AZ
United Kingdom

Mitsuru Sugimoto
Nagoya University
Grad. School of Mathematics
Furocho, Chikusaku
Nagoya 464-8602
Japan

Ingo Witt
Georg-August-University
Mathematisches Institut
Bunsenstr. 3-5
37073 Göttingen
Germany

www.uni-math.gwdg.de/FAPDE

GEORG-AUGUST-UNIVERSITÄT
